## **ANNUAL REPORT (2022-2023)**

I am pleased to share with you the 25<sup>th</sup> Annual Report of Gregorian Public School. As I read through the report you will notice that it was a great year for the school as it is our Silver Jubilee year. This resulted partly from the effort from our staff in opening new avenues for students and partly from the eagerness our students showed to grab those opportunities. More than anything though, this was the result of the incredible foresight and leadership by our mentor H. G. Joseph Mor Gregorios. We all owe His Grace a tremendous debt of gratitude.

Before I begin, let me acknowledge the service and contributions of all the principals and staff who served this institution, which made the foundation of this school really strong.

### **Human Resources**

We started the year with 1782 students and a dedicated team of 92 teaching faculty who sets a strong academic back up for students. In addition to this we have 9 part time teachers who impart coaching in specialized skills like yoga, chess, dance (classical and western), percussion stringed instruments, skating, swimming etc. 85 members of the non-teaching section set the school work like a clock.

### **Infrastructural development**

Our Chemistry Lab is renovated with new equipments. A cafeteria is started for students and staff.

## **Beyond the class room (books) activities**

At Gregorian, we aim to educate the whole child – academic training is only a part of the wider plan. Students from grade III to XI are given club activities as per their choice in 3 categories, according to their age. Once a month, generally a third Saturday they enter the school campus without books and acquire a skill they like. Hence the learning is complete 100%! Students get to mingle and interact with the resource people for the day, many of whom are our own parents and teachers. I take this opportunity to thank all those parents who hold our hands to make our club activities a grand success. The topics are wide and varied from Home Economics to cooking, journalism to web designing, movie makers and quizzing, stitching a button to making a welcome drink, sculpturing and art facts, washing and ironing to gardening. The activities include all kinds of sports – Table Tennis, Cricket, Volleyball, Football and Basketball.
